

QUALITY MANAGEMENT SYSTEM

ISO 9001 / ISO 3834-2 / ISO 1090

QUALITY POLICY

FRAME S.r.l. considers Quality as the fundamental strategic tool for own development.

For this reason it undertakes, through a risk-based approach, to continuously improve the effectiveness of the Quality Management System according to the UNI EN ISO 9001 standard; as far as welding processes are concerned according to the UNI EN ISO 3834-2 standard, applying a factory production control system certified in compliance with the requirements of the UNI EN 1090 standard.

FRAME S.r.l. also undertakes to consolidate the organization in charge of defining and reviewing the objectives for quality.

General targets to be achieved through the Quality System are:

- design and build systems, structures and machines that guarantee safety, functionality and reliability;
- represent a leading brand in the sector of storage, conservation and processing of cereals;
- focus attention on customer satisfaction, developing an ever greater ability to read market needs and requirements;
- focus on internal and external (outsourcing) organizational improvements;
- improve communication and inter-relationship between the various company processes, in order to raise awareness of all human resources towards common objectives.

This policy is available to all company personnel on boards, as well as to all interested parties in case they request it.

Ozzano dell'Emilia, 01st September 2017
